

**LDRP Institute of Technology and Research**  
**First Year Bachelor of Engineering (All Branches)**

**Subject-Fundamentals of Programming**

**Semester-1st**

**Subject Code- CC 103 N**

**Academic Year : August 2018**

**Practical List**

Sr.	Name of Experiment
	<b><u>Practical set-1</u></b>
1	Write a program to print your address.
2	Write a program to perform average of five variables.
3	Write a program to print area of circle and rectangle.
4	Write a program to convert years into minutes.
5	Write a program to perform all the arithmetic operations together in a single program.
	<b><u>Practical set-2</u></b>
6	Write a program to print a character entered by user.
7	Write a program to convert small letter case to upper letter case.
8	Write a program to swap the values of two variables using third variable.
9	Write a program to swap the values of two variables without using third variable.
10	Write a program to find maximum and minimum numbers from two numbers by using conditional operator.
11	Write a program to demonstrate bitwise operator.
	<b><u>Practical set-3</u></b>
12	Write a program to check whether the entered number is odd or even by using if else statement.
13	Write a program to check whether entered character is alphabet, digit or special symbol.
14	Write a program to find whether entered year is leap year or not.
15	Write a program to check how many days are there in entered month by using switch case.
16	Write a program to check whether entered character is vowel or consonant by using switch case.
17	Write a program to get maximum number among three.
18	Write a program to print first 10 integers by using go to statement.
19	Write a program to print addition of first n numbers by using go to statement.
	<b><u>Practical set-4</u></b>
20	Write a program to find reverse of given numbers. (For example 132-231)
21	Write a program to check whether entered number is Armstrong or not.
22	Write a program to check whether entered number is palindrome or not.
23	Write a program to print factorial of a given number.
24	Write a program to check whether entered number is prime or not.

**LDRP Institute of Technology and Research**  
**First Year Bachelor of Engineering (All Branches)**

<b>Practical set-5</b>							
25	<p>Write a program to print Different pattern using For Loop.</p> <table style="width: 100%; border: none;"><tr><td style="width: 50%; vertical-align: top;">1) 1 12 123 1234</td><td style="width: 50%; vertical-align: top;">2) 1 22 333 4444</td></tr><tr><td style="vertical-align: top;">3) **** *** ** *</td><td style="vertical-align: top;">4) 1 12 123 1234</td></tr><tr><td style="vertical-align: top;">5) * ** *** **** *** ** *</td><td style="vertical-align: top;">6) A 23 DEF 78910</td></tr></table>	1) 1 12 123 1234	2) 1 22 333 4444	3) **** *** ** *	4) 1 12 123 1234	5) * ** *** **** *** ** *	6) A 23 DEF 78910
1) 1 12 123 1234	2) 1 22 333 4444						
3) **** *** ** *	4) 1 12 123 1234						
5) * ** *** **** *** ** *	6) A 23 DEF 78910						
<b>Practical set-6</b>							
26	Write a program to print 1 to 5 numbers using array.						
27	Write a program to print 1 to 5 reverse numbers using array.						
28	Write a program to find sum and average of five numbers.						
39	Write a program to find maximum and minimum number from given array.						
30	Write a program to find number of positive, negative and zero from given array.						
31	Write a program to find number of odd and even from given array.						
32	Write a program to sort given n number using array.						
33	Write a program to read matrix, display original and transpose of matrix.						
<b>Practical set-7</b>							
34	Write a program to copy, reverse, concatenate and find length of a string.						
35	Write a program to find length of given string without using string function.						
36	Write a program to copy one string to another string without using string function.						
37	Write a program to compare two strings.						
38	Write a program to find given string is palindrome or not.						
39	Write a program to convert a given string into upper case string.						
<b>Practical set-8</b>							
40	Write a user defined function (UDF) to print whether entered number is odd or even.						
41	Write a program to add first n numbers using user defined function (UDF).						

**LDRP Institute of Technology and Research**  
**First Year Bachelor of Engineering (All Branches)**

42	Write a program to find out average of first n numbers using user defined function (UDF).
<b>Practical set-9</b>	
43	Write a program using structure to get name, roll number, and marks of a student's of a class and find out who got highest marks.
44	Write a program to enter the details (Name, Employee_id, Salary) of employees using the concept of structure within structure.
45	Write a program to create an employee structure having member's name, salary, Get data in employee structure through one function and display data using another function. Use concept of struct and function.
<b>Practical set-10</b>	
46	Write a program to declare and use pointer variables.
47	Write a program to swap two values with help of call by value and call by reference.
48	Write a program to find length of string using pointer and without using string functions.
<b>Practical set-11</b>	
49	Write a program to write the characters into file from standard input and then read the characters.
50	Write a program to write the integers into file from standard input and then read the integers.
51	Write a program that copies the contents of one file into another.
52	Write a program that appends the content of file at the end of the other.

**Prof. Himani Trivedi**

**Subject Coordinator**
